

Cambridge New Therapeutics Forum (CamNTF)

Open to all scientists researching new therapeutics in Cambridge and the local area.

The purpose of CamNTF is to promote interactions between scientists at these organisations in order to improve opportunities for biotechnology research and development.

Attendance is free but all attendees must register in advance. Places are limited and registration will close at midday on Friday 9 September

Next Event:

Hosts: EMBL-EBI & Babraham Institute

Date: 19 September 2016

Location: EMBL-European Bioinformatics, Institute, Wellcome Genome Campus, Hinxton, CB10 1SD

Programme:

17.30 - Doors open

18.00 - Welcome from Hosts

18.10 - **Signatures of Mutational Processes**

Professor Sir Mike Stratton, Director, Wellcome Trust Sanger Institute
